Whispers from The Brighter World
A Third Revelation

Sunday, February 10, 2002 - 8:00 a.m.

My dear daughter, our two hearts are united; you are advancing towards us slowly, but you are making progress. You are caught in the movement of life, that of Earthly life, in its rhythm, therefore you have to comply with it and accept it to the end. You have no other choice for the moment. Being able to accept one's destiny is a great strength, and seeing in it only the positive aspect is a sign of wisdom. Man is caught in this perpetual movement wherein a determining act is sealed on the great book of eternity. Every page of this book calls for a masterpiece. Will it be so? It is, insofar as life is an act, something of a miracle; making it beautiful, full of generous and unselfish gestures, all brightened up by deep faith is another miracle.

"The Earth is very rich due to the diversity of the individuals populating it. This diversity is amazing to observe. It is comforting to see that good counterbalances evil, and that in spite of the darkness of the picture, there is hope. A grand scale operation should happen purifying humanity and unifying it by giving it access to higher levels. A breeding ground of pure souls is preparing for that and sowing this soft and perfectible Earth in this movement of life that characterises it. We keep hope for this great future achievement and we are working in this direction."
