Whispers from The Brighter World
A Third Revelation

Wednesday, February 13, 2002 - 8:00 a.m.

We would like you to be more convinced of the importance of this work. We can assure you that many of our abhyasis will find it interesting and greatly comforting. While advancing in their practice reading our comments, they will discover subtleties related to their own progress. The repetition of these messages will be like a thread, which will make them better understand what they feel, and why the changes happening in them make them see life from a different perspective. They will take to this reading, which will be like a tool aimed at revealing their condition, earned through an assiduous practice. Are these remarks convincing? We hope so. These messages will not remain eternally forgotten in drawers. A time will come when they will begin their life in the open, and nothing will stop their dissemination in various languages."
