Whispers from The Brighter World
A Third Revelation

Thursday, February 14, 2002 - 10:00 a.m.

The proliferation of the human race poses a serious problem. How to solve it? The universal laws will attend to it in coming times. They are clearly visible in other areas where only their intervention can restore the balance of the situation. The phenomena, known as natural, are key elements. What is good for man must be known and recognised sooner or later. A way like ours must find its way in this respect and benefit the greatest number. It develops without great advertising slogans – unlike the way ideas and goods are currently sold in the world. Our ways are different; hidden from the face of the world, they work for the good of the multitude without this illusory fuss. They operate in the silence of the hearts that aspire to other values and to be united with the great mystical current – the only remedy in these troubled times that can raise them above a distressing materiality. There lies the remedy for these evils inherent in an unrestrained lifestyle! Wise men seek God instinctively and they find Him, thanks to their perseverance and deep faith which supports them and drives them."
