Whispers from The Brighter World
A Third Revelation

*Monday, February 18, 2002 - 8:00 a.m.*

*We will always have something to say to you; we are guided only by the aptitude of our medium for doing this work, and your interest in these messages.*

*"We take into account your reactions. The messages have always the same central point; by formulating our ideas differently, we manage to catch your attention. Some of our remarks resonate in you more particularly; they cause a spark and thus stress an aspect that escaped you. For us it is a different way of keeping up with our witnesses of the first hour. We thank you for the confidence you have placed in our medium. The way you surround her helps her in this work, which takes her energy and perseverance. This kind of service is far from being recognised as it should be. There are too many false judgements and too many misrepresentations, as in all the professions, even those well valued by society. Charlatans exist in all environments and do not hesitate to promote their interest over the good of their customers.*

*"We will not change mentalities very soon. Only good sense, in the matter that concerns us, will assert its rights. Why should our abhyasis be deprived indefinitely of this special teaching which would add to their process in our way? The future will decide, in a light our successors may wish to give them."*
