Whispers from The Brighter World
A Third Revelation

Tuesday, March 12, 2002 - 10:00 a.m.

Learning how to love is another stage in human evolution. It is about pure love, dis-incarnate, shall we say, and capable of rising above human contingencies, being supported by a profound faith in the divine and immortal life. This stage is important; it places the subtle being on an ascending line capable of leading him to the highest realms. A force develops in him to help him in his progress. He grows stronger and he loves the divinity that attracts him within it. It is an important stage in his development. The fight is not unequal any more; powerful forces drive his life and carry him. His existence is henceforth shaken up; his reference marks and his goals are modified. One day, the true mystic arrives at this crossroads, which is decisive for him. The set-up of his life changes, imperceptibly. He does not see it in the same way any more. His higher self sheds another light on it, which transforms his habits. A new being is born in him. Will he be able to benefit from it to go to the main thing and reach the highest level? Such is our wish for him and we accompany him with our blessings which will help him in his search."
