Whispers from The Brighter World
A Third Revelation

*Saturday, March 23, 2002 - 10:00 a.m.*

*See only beauty, my daughter; the world is as it is. You cannot change it, except through prayers and positive thoughts. There, the field of operations is broad. You cannot work on the ground, as you would like to do. Many people of goodwill are active there, support them in your own way. In this work, you have many capabilities. Use them. Shower humanity with thoughts of love; this constructive vibration cannot be lost. All this subtle life escapes the majority of men; they do not perceive it, therefore, it cannot exist. All in all, their perceptions are fairly limited to the bare minimum, shall we say, to just what is needed for the manifestation of life to be accomplished. Putting it generously, they perceive only one tenth of the vibratory forces that they emanate from. They advance, limited by sensory perceptions to which they attach major importance. It is not an easy thing to convince them of their limitations; why would they believe what they cannot see? Only clear-sighted beings open to non-materiality can advance on the way to this knowledge."*
