Whispers from The Brighter World
A Third Revelation

Monday, April 1, 2002 - 10:00 a.m.

Should you be reminded that you are making good spiritual progress! Does it not help you to endure your physical miseries? This Easter time corresponds to a period of regeneration and revival of nature. You should make sure to make the most of the forces that benefit creation as a whole, and to strengthen your faith. It is always possible to go further in this area. You have many capabilities yet to be fully utilised. By advancing ever more into the mazes of divine love, your inner being strengthens itself and places you in even greater conditions of surrender. You know that you can progress and excel yourself; you often notice it. It is normal for things to be like that; you are not an exception. You are on your way; your heart would like you to be stronger, invincible and completely guided, but this state cannot be acquired easily. It requires great wisdom, which develops with time. We accompany you in this long process, while saving you from stumbling – just what is necessary so as not to discourage you. Not making any mistake would apply to an advanced state of holiness; therefore, you should accept yourself for what you are today. By continuing your practice assiduously and aspiring deeply to unite with the Master, you place yourself in the best condition. You have all our blessings to accompany you in this work on yourself, which concerns you, as well as your sister."
