Whispers from The Brighter World
A Third Revelation

Tuesday, April 2, 2002 - 8:00 a.m.

Violence and hatred develop dangerously on Earth; it will bring about extreme outbursts of violence. It would be preferable to not be near the hottest places. This step forward is taken inexorably, stirred by increasingly subversive remarks. The governments do not make sufficient provisions to remedy it. In the current circumstances, we are far from an era of peace and love, which however will prevail one day on Earth. Humanity will have to live many dramas before arriving at this profound and durable mutation.

"Positive and constructive forces also act in the darkness, but their power is surpassed by that of evil in this time of dark destruction, which must keep manifesting itself to the bitter end. What else can you do but proceed in your usual way, which serves you in the first instance and which, by extension, serves humanity by laying the foundations for a new world? The Earth is not dedicated eternally to destruction and horror. Its destiny is being accomplished, fostered by the perversity of men who accompany it in its descent to unappealing levels. In a rather remote future, a new life will appear here below, the seeds of which will bring about peace, solidarity and love, by the grace of the Almighty."
