Whispers from The Brighter World
A Third Revelation

Wednesday, April 3, 2002 - 8:30 a.m.

May peace remain in you, whatever happens! You can foresee comforting prospects for a 'beyond' surpassing the framework of this life, the density of which changes, but which continues its evolutionary cycle. You remain unchanged in the very essence of your reality on this level of existence, and on others. Change and renewal do not mean death. The evolution of the being continues elsewhere while continuing to exist, freed from matter and subjected to other laws. Change supports life; it strengthens it, to lead it to being transformed deeply. Do not fear to leave this world; you will continue elsewhere what you have to do in another dimension, in a different perspective. Thus, the soul carries on, on its road, by engaging in other ways more conducive to its evolution.

'To remain on Earth would mean stagnation. Planning to leave it, serenely, ready to continue according to the divine laws can only support your progress here below. These laws are simple; it is enough to accept them with love and confidence, and for you to prepare for what will be a watershed, one day."
