Whispers from The Brighter World
A Third Revelation

Friday, April 5, 2002 - 8:00 a.m.

We appreciate your punctuality; it makes our contacts easier. The concepts of time are specific to Earth, but we conform to its rules. Your steadfastness does not wane; it enables us to inspire these messages in you, which, as we hope for, will help men to understand the reasons for their incarnation in this world, and to get rid of misconceptions inculcated in them. We do not claim to teach them everything; we only wish to reassure them about the reasons for this stay here below, and its extension onto other planes where this life continues. To know that it does not end with this one – as many people believe – gives other prospects and especially motivation to accept it as it is. Voluntary termination of one's life happens more and more frequently in your societies, completely troubled by the hardness of times. Men are weakened and completely helpless, as they cannot find enough reasons to continue to live. This pivotal time is difficult to put up with. Without thorough knowledge of the laws governing human evolution, it is difficult for man to understand the why of his tests. There will be more edifying times – as far as this aspect is concerned – which will sufficiently enlighten man to strengthen him in this initiatory process. May you all, our followers, set examples for your brothers who are searching."
