Tuesday, April 6, 1999 - 5:00 p.m.

Your heart can become the heart of the world. A thousand suns and a thousand planets can dwell in it.

"Each one of your particles is a latent world.

"All is in all.

"The whole creation is only a breath of the Divine.

"Who are you as thinking and acting entities? You should always consider yourself as being as small as an atom in the hand of God."
