Whispers from The Brighter World
A Third Revelation

Monday, April 8, 2002 - 10:00 a.m.

Our wish is this: may hearts be filled with more and more love and compassion for others. Love, and only love, will save the world; don't doubt it. When the elements rage furiously, helped in their surge by the monstrous mistakes made by mankind – who commit sacrileges towards the Earth, Mother Earth – men will only be able to revert to praying and uttering cries of love towards the sky, beseeching the Celestial Father. This fury will not stop easily; it will change the current face of the world completely. At that time the prevailing geographical data will need reviewing. Men who survive this drama will have to adapt to a new form of life, closer to nature than today.

"They will have to find again the strength to fight and face up to events. Ingenuity will be essential; it will have to offset the current prevailing easiness – which will no longer be there. Values will need reinventing and finding again – regarding moral values. There will be a lot to do. The pioneers of those future times will have to be imaginative."
