Whispers from The Brighter World
A Third Revelation

Thursday, April 11, 2002 - 8:00 a.m.

Love is a subtle and powerful energy. It is the driving force of human evolution; it is its quintessence. Let your souls be carried by it and gain in stature. It is the essential element, the force that actuates the wheels of the celestial engine. It takes part in the great movement of life; it creates it and maintains it. Nothing escapes its action, and nothing can exist without it – it [love] has the edge over any baseness. Only what is beautiful emerges from this mad planet where men take pleasure in mire and dregs. The time of purification will come when the mutation will take place by itself, through a slow process, but activated by powerful forces. It seems inconceivable to speak about evolution and change in these times of sadness and distress in many corners of the globe. Cycles are very long and go well beyond the memory of men. Everything is programmed time wise, and is carried out at all costs, no matter what men think about it."
