Whispers from The Brighter World
A Third Revelation

Friday, April 12, 2002 - 10:00 a.m.

You can note that these messages arouse a certain interest around you. They do not provide answers to all your questions, but for the moment what matters is only your progress, which is more important than satisfying a legitimate curiosity – though intellectual. By working on the foundations of your spiritual life, we give you invaluable help. Additional information would not help you in this respect; such is not our objective. You cannot measure the effects of this reading on you; what counts is only your perseverance in sadhana – for which you manage to find a slot. Repeated efforts bear fruit – we keep telling you this. You are perfectly aware of it, hence your steadfastness in following us. We do not use learned words or striking formulas; our vocabulary is understandable to you all – who are equal before this process relating to one of the most important aspects of yourself.

"Repeated gestures – however insignificant they may seem to you in this matter – have their raison d'être. Perseverance opens doors; that's the rule. Be simple and confident in your success, as we support it."
