Whispers from The Brighter World
A Third Revelation

*Monday, April 29, 2002 - 10:00 a.m.*

*Will our candidates have the wisdom to accept the next Master? We hope so. Some, too much attached to the human person, will find it difficult to adapt to the situation. No one is immortal here below. The current Master will one day be done with his Earthly mission, and he will set out again towards another destination. He will leave the place to the chosen successor who will continue the work of his predecessors. Happy are those among you who enjoy the benefits of our way. It is essential by divine grace to help men at a given point in their history. While evolving, man needs an adapted teaching. Times change, and spirituality appears in a new light, more accessible and according to individual needs. The great secret and esoteric movements also extend access to their doctrines. They are no longer restricted to a very selective minority. Man is opening up to knowledge. In this field, culture is no longer limited to the elite. Each one of them can access it, according to their aspirations.*

*"Our way is largely open to all, without social distinctions. The way of the heart must be eclectic. The world needs it; a great lack is felt. This need is no longer what it was yesterday; thus goes the evolution of mankind."*
