Whispers from The Brighter World
A Third Revelation

Sunday, May 5, 2002 - 10:00 a.m.

Time is the custodian of the memory of the world. Since its inception, man's warlike steps have been pounding the ground. Hatred has always resided in them; it is an evil inherent in humanity. Wisdom is rare here below; learn how to cultivate it inside you by looking at the world with lucidity. Don't let yourself be caught in the delusive nets of politics; it is generally deceitful. True politics would be centred on compassion and love, but the world where they could be implemented does not exist. Don't let yourself be overwhelmed by unhealthy thoughts against your fellow man; he is your brother and your equal. That way, you will create tomorrow's world, far from the greed and treachery of rulers of countries, irrespective of their political affiliation. They are all the same or almost the same. They are men and do not have the truth. Who holds it on this Earth? The few good men who left their mark in their time were often assassinated because they were deemed disturbing. This is how it has always been. Evil prevails in this world; times have not yet come when the scales will be tipped towards the good side. Looking forward to that, you should work on your level, i.e., in your heart, thus you will not be mistaken in your confrontational choices."
