Welded to the Master means to be as one with him. This is our true meaning of this word; let it not put you off. It is the best thing that can possibly happen to you. Therefore be surrendered. In this approach at the highest level, there comes a moment when fusion is both necessary and complete. No one can advance single-handedly up to the end. It is in the nature of things. A solitary process cannot be fruitful; this should be borne in mind. I already expressed myself on this phenomenon in my writings. If you were single-handed you would remain on the bank scanning the horizon without being able to reach it. You need an experienced boatman and then, there is every hope of success. You should choose the best means of transport.

"Those among you who will read these lines, if ready, they will understand what I mean."
