Whispers from The Brighter World
A Third Revelation

Friday, May 10, 2002 - 8:00 a.m.

My very Revered Master, Lalaji, does not express himself directly, but he also inspires these messages. We are in such osmosis, spiritually, that we are one and the same in our manifestations. While generally keeping our individuality with regard to the soul of the Mission, we work together most of the time. It is already a vast undertaking that is being prepared slowly, but in a sure way, to expand on a great scale. We are preparing the hearts that one day will be ready to receive us. It will all happen in the most naturally possible way. Just like water irrigating a thirsting soil, our system of spiritual work will be welcome. Its simplicity does not require a very demanding life style, just a few exercises and reference to the Divine through the work of the existing Master. There are no heavy constraints in our way. Today's man would not accept it, he who is overloaded from dawn to sunset by the pernicious effects of this world, and subjected to a high technology that is testing for his nervous system. Meditation is a great benefit to him."
