Whispers from The Brighter World
A Third Revelation

Learn how to create, inside yourself, a universe of beauty that does not require external landscapes, travelling, and such life which is lacking for you.

"Replace it with other joys; you are not a beginner in this process. You have managed to build yourself a special world, substituting for all your old activities. It leads you to special situations, to peregrinations into another space, far from the Earth and its limitations. You go on journeys that not many humans can go on, as they are confined to the banks of this Earth. Therefore, you should appreciate what travel agencies cannot propose, and you should be satisfied with these contacts that allow you to mix with great souls that come and open up to your dazzled heart. Don't you live exceptional moments that have become customary to you? How many of your fellow men can do likewise? Think of it. Won't you do so, and comfort yourself for not being able to travel like them, who remain, in spite of everything, limited to this world? You see that with your tests, you have compensations; therefore, be grateful for having been chosen to achieve this work, my dear daughter."
