Whispers from The Brighter World
A Third Revelation

Wednesday, May 22, 2002 - 10:00 a.m.

Our Mission – its development firmly established – is nearing a new stage. It is developing quickly in certain regions of the world. An outline of its future scope is roughly taking shape. Time will perfect this expansion, which will have to be managed as well as possible. India is the privileged land of welcome for this establishment; people have a deep longing for the Divine, but this country is not the only one. In this field some surprises are yet to be seen. We are happy to see it growing and especially comforting the souls that find in this practice an element conducive to their blooming. What we propose is accessible to all. A candidate tries our system and decides freely without any pressure. This point is essential – we are not an authoritarian sect; we are unlike existing sects that hinder the spirit governing our way. Time will be able to put things in perspective and eliminate this disastrous tendency, which manifests itself in certain countries of Europe and slows down its [our way's] expansion temporarily. The intentions of God are fulfilled, at all costs, for the good of mankind."
