Whispers from The Brighter World

A Third Revelation

Friday, May 24, 2002 - 10:00 a.m.

The union of great souls is sacred; it represents an effective force granting its benefits where necessary. The conquest of the spirit is the goal it sets for itself. Its objectives are well targeted; delivering humanity is one amongst many. You all are pure souls in the becoming. By awakening to the Divine and by working towards that, you attract forces that help you in your progress. The two actions combined accelerate the process. Caught in this spiral, a soul divests itself of the baseness of the Earth where there are strong temptations to let oneself get dragged down by them. This long-term work is going on well, liberating the souls that are ready. When it has achieved its results, the planet Earth will not any more have its current aspect; this place will become habitable. Let's join all our forces in this action; we will reach the goal."
