Whispers from The Brighter World
A Third Revelation

Friday, May 31, 2002 - 8:00 a.m.

Let your heart get carried away and grow in devotion towards your Masters, and continue to unite us in the same love. Keep up this flame in your heart, it is redeeming. We have said it many times: only love can save humanity and transform it by purifying matter. All is possible to man, if he actually wants to take the trouble for it. God is Great; everything can change and a lasting peace can be established on Earth for men, who would be made wiser and get increased stature from their goodwill. Man can change; he must change. He can take up this challenge. Future times call for these changes. The Earth cannot indefinitely delight in wallowing in the mire. Noble souls that rise above it apply themselves to making the world change. An ideal society is not impossible to create. Let us dream one moment of this success where all men would be brothers and would help each other – an idyllic and constructive world that respects the planet and all that lives on it, in terms of the various kingdoms. This peace exists elsewhere, then why not on this Earth? Let's build such a place together."
