Whispers from The Brighter World
A Third Revelation

A medium is not a machine; it is normal that your states of soul influence our remarks. You are a human being, equipped with great sensitivity, which supports these special contacts. We cannot ignore the state of your physical body that hinders your activities. Our remarks are imbued with all this humanity, your sufferings being those of many brothers and sisters who will read these messages. A purely intellectual speech could not hold the attention of the greatest number for a long time. Tests reach all classes of society and no race is spared. By targeting man's heart like that, we go to the deepest level of their being to touch the sore points which they want to ignore sometimes, considering that they have a higher intelligence.

"All men are equal, although the majority of them believe the opposite. Once their current life is completed, they will be able to make an assessment and learn the lesson of a momentary incarnation, but a rich one – so we hope – in terms of an essential asset to their evolution, the only asset worthwhile in the field which interests us here."
