Whispers from The Brighter World
A Third Revelation

Thursday, June 20, 2002 - 10:00 a.m.

To do one's practice correctly, to love, to give thanks for the graces received, and to let oneself be carried by faith – this program is simple! Any of our aspirants sufficiently motivated to consider it as such can implement it. There is no mystery; on the human scale, things must take place like that. All this process, which takes place without their knowledge, intrigues them. Why know? It must be enough for them to be. Their understanding is limited; only the benefits of work operating in them matter. Man cannot go beyond his current understanding; he must put up with it. What matters for him is that he has gone past the stage of ignorance, where a majority of individuals are on this Earth. It is comforting for them to be able to stand at another level, more enlightened about their true nature, and having the means to rise, thanks to a practice resulting from a spiritual way inspired for the good of mankind and beings capable of seizing all its worth. The truth is there, in this wisdom which grows in them and which makes them become aware of the precariousness of their present existence and the need to go well beyond, while following their chosen guide."
