Whispers from The Brighter World
A Third Revelation

Thursday, June 27, 2002 - 8:00 a.m.

Don't be melancholy, will you? Your children-in-heart will do good work on the African land. They will be granted vast opportunities, in particular with regard to spiritual work; we will help them in that. Many hearts are ready to engage in our way; they will be able to grant them the desired assistance. Their experience on the two continents has prepared them to effectively serve the Mission in this area of the world and to help their brothers. The African people are suffering on all levels from undernourishment, from lack of sanitary means, as well as from the superiority complex of the white race towards them – resulting in well-known incomprehension. The exploitation of natural resources by other people completely neglects the human aspect and the huge problems of these countries, which are ignored by great powers who are said to be rich. Injustice reigns in this world – it is nothing new. May the time come soon for men living on Earth to enjoy equity, tolerance and comprehension between peoples! Let us work together towards that."
