Whispers from The Brighter World

A Third Revelation

*Saturday, June 29, 2002 - 8:00 a.m.*

*Relax; let your heart open up favourably to our contact. Meditation is sovereign, you see; it opens the doors and provides you relief. This space is only yours; it is developed upon request, by disregarding negligible aspects. By releasing yourself from external turbulences, you should be able to use this means at your disposal to unite with the Divine. These moments are precious to you; they enrich your spiritual life and make your life, as a whole, favourably balanced. The harmony that you create in yourself can be felt outside, and is appreciated in your circle. The heart does not hold its light egoistically; it makes sure that it benefits those who can perceive it. You should become the torches of this world on the march, which is preparing the new race: vibrationally elevated, capable of making men better and benevolent towards their brothers. This is not utopian; the Earth will not remain at this quite distressing stage. Everything can evolve towards good; let's work together in this direction."*
