Whispers from The Brighter World
A Third Revelation

Thursday, July 18, 2002 - 8:00 and 10:00 a.m.

Are you abandoned and ignored in this world? Then why would you be so elsewhere, when you have left it? You do not have anything to fear; the bonds of souls defy both distances and time. You have been witnessing the evidence of it for many years. The Earthmen believe they are the only living beings on this small planet spinning around itself, while it follows a preset course. It is a mere dot in a star cluster, and is neither exceptional nor imposing. They have been given teachings coming from other worlds throughout their long history, which does not make of them higher beings. As we already said, the level of evolution on this Earth is not very high, contrary to what men believe. One day, they will actually have to resign themselves to that and admit their ignorance of realities. After being convinced about it, it will not be easy for them to set out again on new bases more in line with the universal laws. It is by dint of this that the world will continue to exist. As for the only true greatness, it exists only in the values that the majority of humans want to ignore. To them God is a myth. They don't consider such aspects, preferring to continue wallowing in an exacerbated materialism. Pray for the advent of a world more right and beautiful."
