Whispers from The Brighter World
A Third Revelation

Tuesday, July 23, 2002 - 10:00 a.m.

It is true that contacts are established between certain leaders of influential countries and beings coming from elsewhere. We cannot give any further details for the moment; that is not our intention, and moreover, it would not be admitted by a majority of individuals. You will have to wait until this fact becomes obvious to the greatest number, and then this issue can be addressed in more detail. People's minds are slowly opening to the idea that extraterrestrials, far more advanced than Earthmen, come and give them instructions on actions to be taken in difficult situations. Yet it is nothing new, as proved by secret files. It will actually be necessary, one day, for everything to take place in the open, and for men to accept what they obviously and clearly hold in a lower position. The moment has not come; very important movements of force will have to be applied for this to happen. This reality does not change anything to that which concerns you personally, i.e. working on yourself, as your evolution does not depend at all on these external aspects."
