Whispers from The Brighter World

Sunday, April 18, 1999 – 10:00 a.m.

Important events are in the making for the future. A huge fire must be lit to purify the world.

You need not be frightened, just go forward calmly in faith.

Certain actions are inevitable. We need not judge them. The world is in such a bad state that it will be necessary to open the abscess. It is a poor clichê, but when the forces of evil are unleashed to this extent the reaction, sooner or later, is inevitable.

My dear aspirants, I do not want to alarm you. You are mature enough to realise the mess the Earth is in.

Always be confident in your Masters, they do everything possible for your good.

Babuji
