Whispers from The Brighter World

A Third Revelation

Sunday, July 28, 2002 - 8:00 a.m.

You shouldn't doubt any contacts you establish. Your capabilities are broadening, which opens to you other ways. Your surprises are not yet over. The Earth is only a small planet in a Great Whole, and it is endangering itself. Competent authorities will intervene more and more to try to limit the impact of all these ill-considered acts, which are likely to create serious problems, not only here but also in the universal order. The sages of this world are not listened to; only profit dominates everything. These notions are very deeply rooted in the minds of humans. Mentalities will have to change imperatively, in future times. Another vision of the world will be essential by force of circumstances. Man's cause is not desperate; we are working for that, while being ourselves in the service of the divine omnipotence. The Earth is not our sole place of action; others also require our special attention. The law of evolution implies complete commitment in the service of the divine forces that govern the worlds."
