You have arrived exactly where we wished; as you can see, it is not difficult. You have become a fervent disciple of your Master; your heart is full of love for him and longs for his. It is an important stage for you. Your spiritual life is attractive in another way. Your heart is in a state of remembrance of him, which accompanies it at every moment. Everything comes at the right time; the soul opens out like a rare flower, under the fiery glow of love. Be happy for having reached this point, my dear daughter."
