Whispers from The Brighter World
A Third Revelation

Monday, August 12, 2002 - 8:00 a.m.

The years to come will bring about changes in the world. Difficult times will come and it will be necessary to be well equipped to adapt oneself, equipped emotionally and spiritually – which constitutes an appreciable refuge. Difficulties of all sorts will arise, and men in certain countries, more particularly, will have to face up to things. In Europe, you enjoy easier living conditions, compared to many countries on this Earth, and yet, we hear only complaints and we see only dissatisfaction, including among many abhyasis who are never happy. This way of being is not limited to this part of the world, but it is all the more surprising since this is the most privileged [region]. In all times, and for many people, faith enables them to face up to the difficulties of life. It is the recourse that can create some bright spots in quite gloomy existences. We keep receiving calls; humanity is suffering in many ways.

"Spirituality does not provide answers to all problems; but it elevates hearts towards a world freed from the pangs in which they are plunged. These remarks are not exaggerated; they are well short of the truth. Humans cannot grasp the sad reality of this world, but to us, it unfolds with utmost truth. Think of all this and pray to God so that the status of this planet changes."
