Whispers from The Brighter World
A Third Revelation

Thursday, August 15, 2002 - 10:00 a.m.

None of the work you are doing for your progress is lost; all is counted and bears its fruit. Your goodwill and your inner attitude encourage us to follow you closely in your process. We are sensitive to your efforts as well as to your regularity in the spiritual practice. We have set ourselves the goal of helping mankind to come out of their struggle victorious, to emerge from darkness; everything possible is being done for that. Being in need and calling us are the most important aspects in this business. We cannot force anybody to do what they don't want [to do]. Humans have their free will; it is up to us to provide the opportunities that will be likely to convince them about the importance of their evolution, and that they should not neglect the main thing – spirituality – which can change their life by changing them themselves."
