Whispers from The Brighter World
A Third Revelation

Each test must be considered as a step forward on the initiatory path. The important thing is the frame of mind in which you live it. Acceptance is the best attitude. It is not easy to consider the blows dealt by fate from this perspective, but what else can be done? They are inevitable. The only means of reducing the burden is precisely to live them in a state of mind that is surrendered to the divine will. It is man's only recourse in the face of his process. Thus he has elements that are likely to make a success of his incarnation. There is no way to avoid it; destiny is there, relentless, and no one can escape it. It is better to put up with it willingly. Complaints and cries are understandable, but they are not constructive. Life is more or less hard. No one is spared difficulties; it is the rule here below. Considering it like that makes a success of one's life. Only acceptance makes it possible to advance in the best condition. The spiritual practice is a precious help in this daily challenge proposed to humans. They cannot change their destiny, only the attitude which will enable them to face up to it."
