Whispers from The Brighter World

A Third Revelation

Wednesday, September 18, 2002 - 8:00 a.m.

Feed on these messages, my daughter; they instil their divine essence in your heart. Don't only see in them a simple reading and a teaching likely to help you; it also operates on other planes, which you are not aware of as an incarnate being. Man is not aware of the extent of his potential. He does not know the hidden side of his individuality. His spiritual process opens his mind little by little, but there is an enormous work to be done to lead him on the way to knowledge. This world, in its current dimension, does not lend itself to a widening of its capabilities. A high level of realisation facilitates things; it allows openness onto the realities of the being. Those who are the most advanced among men have yet to conquer an unlimited space which only their perseverance and their thirst for the absolute, will enable them to explore. One day, this other dimension will become accessible to them. By following an ascending line, they will be transferred onto heights which they cannot suspect in the current state of their perceptions."
