Whispers from The Brighter World
A Third Revelation

Thursday, October 3, 2002 - 10:00 a.m.

We have come a long way together, my daughter, and we have addressed all topics likely to help our aspirants in their process. They will not find in these writings great esoteric revelations; the great discovery must take place within them, and our remarks will foster this search. Through them, we have drawn their attention in many ways to what should be done, the secret residing in the heart of hearts. This search will reveal to them many aspects as well as a world existing beyond Earthly time, which will bring about serenity for them to face up to the obstacles of the world wherein they live. True knowledge is inside oneself; it is not in the erudite books that nurture the intellect, although they are necessary for some aspects. While proceeding in self-discovery, they will find all the great theories are futile. This observation will result from a long process, which will make them discover the main thing. Practise with faith in your Master; he is the guarantor of your success, if you are sufficiently committed. Regular work bears the best fruit; you will realise it with the passing of time, which will assert your eagerness to continue a process that has become essential to your life."
