Whispers from The Brighter World
A Third Revelation

Monday, October 28, 2002 - 10:00 a.m.

Each person has his own place in our way. From the Master to the aspirant who is most self-effacing, but very active in his practice and his devotion – all contribute to its radiance. Don't underestimate your role; you know how important we consider this work. We will not revert to arguments we have already put forward many times. All that refers to the Mission is important; it is growing in the world. Each new abhyasi is a new link in the chain to which more links will be added, reinforcing the existing and fully expanding égrégore. You can be delighted to have been among 'the workmen of the first hour', who have contributed to giving it strong foundations. By divine grace, it is making its way as decided by the higher authorities. Our way is an opportunity of evolution granted to the new era, which has started to dawn. New times require means adapted to people, to the way of being of each one who is trying to find their bearings in a disconcerting world. Man will still be disconcerted by a very fast evolution of a completely different lifestyle prevailing in the future on this planet. Losing his usual reference marks, he will have to develop himself differently by turning to another reality neglected for so long."
