Whispers from The Brighter World
A Third Revelation

Tuesday, November 5, 2002 - 10:00 a.m.

Please understand that everything is said and done for your good. This speech is also addressed to all our brothers and sisters who must face up to life with all the joys and sorrows included in it, and who, parallel to that, grow spiritually thanks to their regular practice. All in all, we have very motivated aspirants, who try to do what is good for their development in this field. The purpose of the remarks included in these messages is to help them, and to make them become aware of their weaknesses on some special aspects. Nothing must be neglected, when one's resolve to advance is strong. We do all the needful so that our abhyasis can reach the targeted goal. To say that Master does everything and that it is enough to let go of one's practice, quietly, without applying oneself too much, is a well-worn formula; the well-informed people never believed it. It is up to each one to find their pace and to meet the real needs of their spiritual being, which grow with time. Their requirements are proportionate to their evolution and it is good to satisfy them. You are not alone in your struggles, whatever they are. A divine presence guides you and supports you, lighting your road. The onus is only on you to make it productive, while remaining attentive to what it inspires in you."
