Whispers from The Brighter World
A Third Revelation

Friday, November 15, 2002 - 10:00 a.m.

The pervading noise does not matter; doesn't this contact take place in another space? Take the step that allows you to reach it; it is through your heart, which likes to foster this contact. The only noise it appreciates is that of our voices, which resonate in it. It feeds on their sound; they come from another world where ugliness and meanness are banished. We would like to lull all the hearts that are offered to us like that; there are many of them who receive our grace through the efforts they make to follow us in this redeeming way. With these messages addressed to the heart, we want to provide them with an additional means to help them to advance more quickly. The spirit also needs suitable food. This one has its own importance; nothing should be neglected in this kind of process where each effort counts. We are attentive to each person's path, since it contributes to the whole, forming our Mission.

"Its foundations are laid; they are solid and will be able to resist time, contributing to the construction of a better world. It already has its place in this redeeming system.

"Don't doubt it. Grand gestures do not prevail in this area; the ways of God are applied there in the silence of the hearts, which they can lead unobtrusively towards His light."
