Whispers from The Brighter World

A Third Revelation

Sunday, November 17, 2002 - 10:00 a.m.

All human beings will have to go beyond their current condition to understand their tremendous unexploited potential, because the overall level of this planet does not provide for it at the moment. The higher authorities will have to decide on its status, once again, before humanity's self-destruction. A solution will have to be found, so that it can eventually shift into another dimension to open up to reality, leaving behind it its bad instincts. Man is perfectible; he is hindered only by his tendencies, firmly rooted in him. Many long for a more spiritualised life, but they don't take the necessary steps, as they are too absorbed by their own small businesses, which distract them completely. They neglect the most important thing, but how can they be made to understand that they are wasting precious time in building nothing worthwhile, even if it is about their fortune, which is illusory as you know. You, who have understood where your true needs are, you have distanced yourselves from materiality. You take a lucid look at life; you are wise people. The way you have chosen is good; don't doubt it. It alone will not disappoint you. By developing for yourself another life, you open your mind and your heart to a dimension which elevates you towards divinity, your true destination."
