Whispers from The Brighter World
A Third Revelation

Wednesday, November 20, 2002 - 10:00 a.m.

It would be good to come back to the symbol and to draw it up; it will take on its full meaning in the future. Big esoteric movements have their own, a geometrical figure, representing their occult action. Time will make it possible to highlight the characteristics of ours. We inspired it in you well in advance, because we had to do it in the framework of this special teaching.
One day, it will be read differently as minds would have evolved favourably to understand its subtleties. The consciousness of this world must rise and become receptive to universal realities. An enormous work needs to be achieved to that end.
A new cycle is starting, which should make it possible to foster a broadmindedness, which this world could benefit from. It is high time for a radical change to occur in people's thoughts and behaviours. Man's molecular structure will need to change; a related mutation would allow him to approach facts in a more esoteric way.
He can only progress in terms of knowledge by dint of it. This mutation will be painful, but it is necessary for the future of the entire humanity. It cannot continue in this escalation, which leads it towards its destruction rather than towards salvation. You, who are on the path, may your thoughts be positive concerning the future of the world. Be 'missioned' ones convinced of its future upliftment: we are working towards that end."
