Whispers from The Brighter World
A Third Revelation

Saturday, December 14, 2002 - 10:00 a.m.

My stay on Earth had a profound meaning, which your loving hearts have managed to understand. Invested with a specific mission and preceded by my Revered Master who opened the doors for me, everything was set up according to the divine intentions. You are, in your turn, fervent disciples who follow your Master; thus is the chain of love extended. It will grow with time, fostered more and more by the circumstances that will make man wonder about his purpose, by becoming aware of the precariousness of life. So many human beings behave while ignoring the divine laws completely and neglecting its [the Divine's] least rules, without any sense of respect. The best of humanity must be able to be expressed, and make it shift into another dimension, propelling it onto levels of consciousness more in line with a great number of individuals ready to take the plunge. This time is coming soon; it has been in the making for a long time. It all seems slow on Earth, with regard to this aspect of things. What is time, compared to eternity? At the very most it is a human concept that does not mean anything, beyond its specific codification. Life on Earth can be observed from outside, a little like life in a hive. The interest lies elsewhere, on a more subtle level, which is not necessary to elaborate on here. The moment has not come; it is in the making. It is up to you to make sure that your hearts are also ready to welcome the new times. We bless you all."
