Whispers from The Brighter World
A Third Revelation

Wednesday, December 18, 2002 - 10:00 a.m.

We take your life as a starting point in these messages, because, in the broad outline, it interests also each one of our brothers, as far as the topics addressed herein.

"Problems, pitfalls, sorrows and joys – life is a combination of all that and, with time, their many aspects are explored by all. Seen from a special perspective, that which we often mention here, it is all enlightening and constructive when it is well understood. The only purpose of the many developments occurring in a lifetime is to make you go through experiences, more or less well led, according to the level of evolution of the person concerned. Nothing lasts forever; everything is renewed, in various degrees in terms of what exists in creation. Man does not escape the rule, he must go through all the states; his change hinges on that. The many events taking place during his existence aim to make him stronger. He will have to face up to them until the end, while considering them – as he grows in wisdom – as a personal enlightenment.

"Acceptance elevates the soul, by opening it little by little to its divine splendour. A spiritual process gives another meaning to life; it makes it possible to discover new horizons and it gives inner strength enabling one to face up to things with more serenity. The way is long and difficult throughout; the laws are made like that on the Earth, no one can escape them. It is better to regard this process as being initiatory, and to make sure that you make the most of it."
