Whispers from The Brighter World
A Third Revelation

Monday, December 30, 2002 - 10:00 a.m.

We do not have to go into details likely to satisfy your curiosity. We limit ourselves to the main thing for your good, i.e., your spiritual growth. That kind of literature is abundant and is meant for consciousness awakening. We have our own framework and these messages are in line with our teaching. They are specific and operate vibrationally in the hearts. We are in one and the same current of energy, particularly benefiting our brothers and sisters who chose our way. Any valid argument capable of awakening man to the cosmic consciousness is much valued. Many voices are rising in the world, trying to enlighten Earthmen on the reality of the worlds. Beings of light appear to reliable mediums to help humanity. It should be time that it emerged from this obscurantism maintained for centuries. People's minds are opening out; many can no longer be satisfied with a teaching that does not meet the aspirations of this new era, which heralds important upheavals in all areas.

"Knowledge must come gradually; it is not possible to thrust great truths forward so quickly. If they were misunderstood, they would confuse people rather than help them. Transformation must come from inside, hence the interest in our practice of facilitating a true comprehension of mystical principles, rather than a wealth of details feeding the intellect and not aiming for the target which interests us here. Remain confident in your Masters; they act as best they can for your personal development."
