Whispers from The Brighter World
A Fourth Revelation

Tuesday, January 14, 2003 - 10:00 a.m.

As far as this work is concerned, words are projections of the spirit. They operate in you vibrationally touching key points and helping you in your spiritual process.

"Here, in our comments, it is the heart that is targeted. It is sensitive to simple words and expressions understandable by all. We do not target those whom men call elite; for us, you are the elite. The following applies to each one of you: the heart, seat of the soul, has its own laws, as far as our work is concerned and its resulting extensions. All the rest does not concern us; our work is not aimed to earn us a literary prize. Quite fortunately, our purpose lies elsewhere. These messages will not be accepted by all. A great number of our aspirants will find therein matter likely to awaken their psychic centres, thus helping them in their development – which is the goal of this spiritual search.

"Criticisms which they may raise do not matter; we target those who, in their acquired wisdom, will be able to identify the very simple truths concealed by this apparent simplicity. We see only the awakening of your spirit, facilitating a progress which, in addition, continues with your personal work as well as that which takes place at the highest level – at the level of your Master. Everything is done to bring you to the highest step, that of realisation and bliss."
