Whispers from The Brighter World
A Fourth Revelation

Tuesday, January 21, 2003 - 10:00 a.m.

You are invested with a mission – that is not too strong a word: accept it. Do you have an idea of the help that these messages will bring? Haven't they changed your spiritual life? You must face the facts; this work is important. By reading us faithfully, our brothers and sisters will discover in themselves a richness which they did not suspect. These writings will help them to become aware of a certain number of things, including why we provide them with recommendations, which are at the root of the teaching we lavish upon them at the beginning of their practice. All has its raison d'être. A well-led spiritual process makes it possible to explore fields hitherto ignored. Little by little, the heart of the aspirant opens up to a reality which it ignored before. The most beautiful discovery which man can make is his inner richness, that which can be revealed only prudently and which requires the most attentive care justified by this precious masterpiece.

"All the mystics of the past and the present have made discreet references to this conquest, the only one deemed worthwhile, insofar as one considers it unique. When the moment has come, the heart expresses some sense of need; it cannot contain its thirst any more for the Divine, which exceeds all the rest. We wish you the best, that is to reach this point of no return where your spiritual process takes the prime position in your life.

"It is the nicest gift which life can hold for you. You have come a long way already, and for you, light starts dawning on the horizon."
