Whispers from The Brighter World
A Fourth Revelation

Friday, January 24, 2003 - 10:00 a.m.

Your heart is ageless; it is out of time. Age is a physical condition; it relates only to the incarnate body subjected to the laws of this world. The subtle part of your being is beyond this context. The spiritual heart is free and independent from the system; it has its own rules, which cannot be defined by humans.

"This principle should be admitted to by the whole of humanity, which is not yet at this stage of comprehension; far from it.

"Your personal work contributes to the development of the new era; it prepares the ground of knowledge for people most impervious to all such capabilities.

"Most of humanity is locked up in a system of beliefs, very limited and false. The majority of individuals are not ready to receive the truth; they would not believe it. Time has not come as yet. It is advisable to prepare the ground and to place the seed at the right place.

"All things related to this planet take place slowly. Its vibration generates a movement which, in its current state of evolution, cannot be accelerated. An overall transformation will be carried out in a great redeeming set-up, specific to the upcoming new cycle. All the rules that govern it will be modified after profound upheavals that will manifest themselves beyond the Earth. The Earth is infinitely small compared to the vastness of creation. Changes of all sorts are necessary for its balance and its evolution. They will take place at the appropriate time."
