Whispers from The Brighter World
A Fourth Revelation

Monday, March 10, 2003 - 10:00 a.m.

Take it easy; do not let worries of a material nature affect you like that. How important will they be in a year from now, let alone in ten years' time? Your way of life and your health-related ordeals weaken you, but please, take refuge in us.

"Life's turbulence is illusory and out of proportion with the serenity provided by a well understood and regular spiritual practice. It elevates one above the world of blackness and torments associated with each life.

"The purpose of teaching is to strengthen you. And sadhana aims to highlight the strong points of your spiritual personality, which are far removed from your characteristics at a human level. A parallel life develops in you through our system, which consists in working on oneself. It bears fruit that you cannot always assess correctly. Imperceptibly, as the years go by, you shed useless aspects: all of your hindrances which inevitably slow down your evolution.

"In our way, everything is implemented with a view to meeting this objective: to accompany you towards the goal. You were guided towards us; your heart yearns for elevation. By choosing a high-level spiritual Master, you engage in a profitable and redeeming ascent. We support your efforts and we bless your undertakings on this prospect."
