Whispers from The Brighter World

A Fourth Revelation

Sunday, April 27, 2003 - 10:00 a.m.

Yes, my child, this visit really took place in your heart. Our brother left his blessing therein. As he told you, we are all serving the same divine hence magnificent cause, acting wherever its will requires our inter-dimensional action. God is the creator of an infinite universe which has no limits, at least limits indefinable to man. He has informed you, using a formula of his own, of one aspect of the great upheavals to come.

"The future of humanity is a broad issue, pertaining to the concerns of all of us here, united in the same combat which also covers humanity. It requires our attention because of the growing excesses of men. Being full of themselves, some assume rights endangering the universal balance. A disaster caused on the Earth is not restricted to it only; it generates chain reactions that are very worrying for the established order. This concern is justified due to the diabolic plans devised by researchers who stop for no moral principle. Only an exceptional force could neutralise the pernicious effects of these discoveries. In such circumstances, evil will need to be treated by evil. Great remedies are sometimes necessary to stamp out this mad escalation that results from a desire for domination and power over the world. God must act for the good of all, no matter which means are employed."
