Whispers from The Brighter World
A Fourth Revelation

Monday, May 26, 2003 - 10:00 a.m.

You are progressing in your own way, my daughter; each one has his own. Pace-wise, all human beings form more than one group.

"People have different motivations. That gives humanity a particular characteristic specific to this planet. It can be seen as an immense proving ground, a place where all individuals can make choices and grow according to their own aspirations.

"Everyone has that freedom, which he may use as he sees fit to lead a successful life. Will a spiritual quest be part of his priorities? Will the appeal be strong enough to lead him in a current of thought capable of answering his questions? Man follows a natural tendency whereby he is inclined to have experiences through which he will choose a way suited to his tendencies. Many of our brothers come from different backgrounds, religions and cultures, where they were not necessarily prepared for our process. The inner being drives the researcher towards the food that is suitable for him. The soul is searching and expresses it: it aims to find the Master who will answer this appeal.

"May it not move away from the Master any more, as some of our aspirants are tempted to do when facing existential difficulties; they seek in a particular group a sense of perfection that does not exist on this Earth."
